Objective

Second-year Computer Science student at Shiv Nadar University with hands-on experience in systems programming, AWS cloud architecture, and Python. Passionate about building real-world solutions at the intersection of cloud infrastructure and intelligent systems. Seeking opportunities in Cloud, DevOps, or AI/ML to apply and expand my technical skills.

🎓 Education

Shiv Nadar University 🔗	08/2024 – Present
CGPA: 7.890	Delhi-NCR
Narayana IIT Academy	06/2022 – 04/2024
Percentage: 96.5	Hyderabad

🧠 Technical Skills

Languages — Python, Java, C, MySQL, HTML, CSS

Tools — GitHub, Git, Linux, JavaFX

Cloud — AWS (EC2, S3, IAM, VPC, CloudFormation)

Skills — Data Structures, Database Management (DBMS), REST APIs

📁 Projects

Whack a Mole Game

Developed an advanced Whack-a-Mole game as an OOP capstone project using Java 17 and JavaFX 21, with a multithreaded game engine and thread-safe JavaFX UI. Implemented polymorphic game objects (Mole, Bomb, BonusMole) using abstract class hierarchy and Observer pattern for engine-UI decoupling. Features dynamic difficulty scaling, responsive grid layouts, JavaFX animations, and file-based high-score persistence using Java serialization.

Design and Implementation of a User-Space Inode-Based File System Using FUSE

Designed and implemented a user-space inode-based file system using the FUSE framework in C, featuring a superblock, bitmap-based inode/block allocation, and support for core operations including file creation, deletion, read/write, and directory management — tested via a standalone driver program with verified ENOSPC handling.

📜 Certificates

- AWS Academy Cloud Foundations [🔗](#)
- AWS Academy Cloud Architecting [🔗](#)
- Data Fundamentals — IBM SkillsBuild [🔗](#)

🧩 Extra-Curriculars

- GoDaddy Buildathon, Goldman Sachs Hackathon, Smart SNU Hackathon — applied programming and problem-solving skills in competitive, time-bound environments.
- Member, Roboyantriki Club — involved in robotics projects with hands-on experience in CAD software for design and prototyping
- Event Management, Strategen Club — coordinated technical and cultural events at university level.
